Reference: PRC Docket #MC2012-26

Dear Commissioners,

We are a struggling franchisee/owner of The UPS Store in Palm Harbor, Florida employing four people from our community. We are small business owners trying to live the American dream, to work for ourselves and retire without being a burden to American taxpayers. This bill would take our dream away, put four people on unemployment, put a hardship on our community, have another vacant store front and effect our fellow small businesses that we purchase goods and services from. This entire bill should be torn up, shredded and burned so it never sees the light of day again.

We need to play fair, I can't compete with the United States Government especially one that uses my tax dollars to compete against me but also has an unlimited amount of funding. The USPS is the only private business I know that can lose money year after year and still remain in business. GM, Ford, Chrysler and the Banking Industry tried it and failed. Why compete with the little guy, use your massive resources to compete with the large corporations.

Let me keep the dream alive.

Please do not hesitate to call me. I still have more opinions on the matter.

Sincerely,

A handwritten signature in blue ink that reads "Glen D Myers".

Glen D Myers
